- 10) **Next Meeting Date** – Plymouth City Hall
- 11) **Adjournment**

Northville Plymouth Fire Advisory Board

Meeting Minutes
Friday, December 6 2019 4:00 p.m.
Northville City Hall

City of Plymouth
201 S. Main
Plymouth, Michigan 48170-1637

Phone 734-453-1234
Fax 734-455-1892

ROLL CALL

Present: Chair Brian Turnbull, Vice-Chair Marques Thomey, Member Paul Sincock, Member Pat Sullivan,

Excused: Member Robert Vogel

Others Present: Chief Steve Ott

PURCHASE OF RADIOS

Chief Ott reviewed the radio grant that will pay the majority of the cost. Local funding will be \$32,177.07. Sincock made a motion, seconded by Thomey to approve the purchase.

MOTION PASSED

PURCHASE OF FIRE HOSE

Chief Ott explained that Northville is hosting the grant that several other communities will benefit from. He described light weight hoses. Thomey made a motion, seconded by Sullivan, to approve the purchase.

MOTION PASSED

CITY OF PLYMOUTH PURCHASE OF FIRE TRUCK

Sincock led a discussion about the purchase. Thomey made a motion, seconded by Sullivan, to approve the purchase.

MOTION PASSED

OTHER BUSINESS

There was no other business

NEXT MEETING DATE

The next meeting will be on Monday, January 6, 2020 at Northville City Hall.

ADJOURNMENT

Thomey made a motion, seconded by Sincock, to adjourn.

MOTION PASSED

Respectfully submitted,

Paul J. Sincock, Recording Secretary

Northville City Fire Department

Serving the Cities of Northville & Plymouth

FIRE PREVENTION DIVISION

FOURTH QUARTER 2019 REPORT ON ROUTINE FIRE INSPECTIONS

The Fire Prevention Division is headed by the Fire Marshal, who is assisted by five part-time, State-licensed Fire Inspectors. The Fire Marshal conducts plan reviews, meets with owners, contractors and other City officials, oversees the testing of fire suppression and fire alarm systems in new occupancies, and oversees the work of the Fire Inspectors.

The principal work of the Fire Inspectors is the conduct of routine business fire inspections. In addition, they may work with the Fire Marshal on suppression system and alarm tests, meetings with owners, contractors and other officials, assist in the conduct of pre-plan site visits and otherwise participate in the work of the Fire Prevention Division.

Routine business fire inspections consist of new inspections, and re-inspections, when the Fire Inspector returns to check on the status of violations noted during the new inspection. For the fourth quarter of 2019, the following routine business fire inspections were conducted:

Station 1 (Northville)

New Inspections 23

Re-Inspections 8

Station 2 (Plymouth)

New Inspections 7

Re-Inspections 2

Northville City Fire Department

Serving the Cities of Northville & Plymouth

TRAINING REPORT FOURTH QUARTER 2019

During the fourth quarter of 2019, the Department conducted or participated in 27 training sessions, devoting approximately 727 personnel hours to training activities.

Regular Department Training

17 sessions; 615 personnel hours

Topics included:

New EMS equipment (I-Gel, CPAP, albuterol), aerial ladder operations, pump operations, water supply, hazardous materials response and equipment, SCBA, ventilation, ground ladders, initial fire attack, primary search, building familiarization, hose advancement, ropes and knots, basic skills drills, RIT functions, apparatus inspections, power tools, residential and commercial fire scenarios.

Individualized Department Training

2 sessions, 32 personnel hours

Topics included:

Fire behavior, car seat continuing education.

Outside Training

8 sessions; 80 personnel hours

Topics included:

USAR (technical rescue) Team training, HMRT (Haz Mat) Team training, confined space operations, breaking and breaching, rigging, saws and torches, patient packaging, ropes and knots, SCBA, machine rescue, lock out/tag out procedures, robots, Incident command, hazardous materials research, use of Cameo program.

Volunteer fire departments seeing a decline in ranks

- By James Mayse Messenger-Inquirer
- Dec 15, 2019

According to the National Volunteer Fire Council, 65% of all firefighters in the United States in 2016 were volunteers.

But the number of people joining volunteer fire departments is on the decline, and not just in Daviess County.

"The volunteer service on the fire side is really suffering," said Randy Lawson, executive director for the Kentucky Firefighter's Association. To younger people, being a volunteer firefighter "is not as appealing as it used to be," he said.

"The volunteer fire departments, not just in Kentucky but nationwide, are crying for help."

Several chiefs of area volunteer departments said they have had fewer people signing on to be firefighters for some time. Having fewer volunteers on a department's personnel roster has an impact on the response because there are simply fewer people to come to a fire or emergency run. And, as the current generation of veterans gets older, there aren't as many younger volunteers coming up to learn from their experience and eventually take their places.

Officials with the Daviess County Fire Department are launching a special team at the beginning of the year to help volunteer departments cope with having fewer available firefighters.

The team is "a short-term fix for a long-term issue," said Shaun Blandford, assistant chief with the Daviess County Fire Department.

The issue of declining numbers of volunteer firefighters isn't new. The U.S. Fire Administration, which is a branch of FEMA, published a study on why there were fewer volunteer fire departments in 2007. That study cited information from the Bureau of Labor Statistics and St. Joseph University, which found the most common reason volunteers cite when they leave the fire service is they lack the time to volunteer.

Pat Thompson, chief of the Airport-Sorgho Fire Department, said potential volunteers are often too busy to volunteer.

"When we were growing up, we probably didn't have as many activities available to us," Thompson said. "Now, people are working two jobs."

Bob Newman, chief of the Thruston-Philpot Fire Department, also said it's "harder and harder to get volunteers."

"Everybody is so busy nowadays," he said.

In addition to people being busy with families, careers and activities, there's a large time commitment to be a volunteer, Newton said.

"There are 150 hours of certification training they have to have, and then they get certified by the state," Newman said. "It takes a while to where you can utilize them completely."

Some departments are busier than others. The Thurston-Philpot Fire Department made 1,200 runs in 2018. In the average year, the department's volunteers make about 750 medical runs, Newman said.

Greg Schadler, chief of the St. Joseph Fire Department, said "there are not a lot of young people coming up. We've had four or five in the last year, and that's a good number."

The challenge, he said, is "just trying to retain them."

It can take a volunteer "over two years" to get through the required training, he said.

"The younger generation, they aren't what they used to be," Schadler said. "Everyone used to like to go on fire runs and help their neighbors."

David Stevens, chief of the Beaver Dam Fire Department, said his department has 34 volunteers. That doesn't mean 34 will show up for a fire or emergency run because everyone is not available all of the time.

"When you have 30 people on your roster ... you might end up with 10 on the scene," Stevens said.

A volunteer department with a small number of volunteers might have only three or four people respond to a fire, he said.

"There are a lot of departments that are hurting," Stevens said.

With fewer young people involved, the volunteer service is getting older, retired Daviess County Fire Chief Dwane Smeathers said.

"The older guys are still around, but the younger guys are too busy," Smeathers said. "They've got families (and children's activities like) football, soccer, dance."

"It's a big responsibility, and the volunteer service is paying for it," Smeathers said.

In areas like St. Joseph, several members of the department are farmers, so they are able to respond to a daytime call, Schadler said.

"St. Joseph probably has the most individuals available during the day," Thompson said.

But departments with volunteers who work jobs away from their homes are having a hard time fielding firefighters during the day.

"The operational effect (of having fewer volunteers) has probably been on daytime response," Thompson said. "... There are not that many people (available) during the day, because there are not as many people around."

Of the aging of the volunteer service, Thompson said, "out of our 30 people, we probably have seven or eight of us who are over 50, and probably another five or six in their 40s."

Stevens said, "a lot of departments, they (have) people with 20-plus years" of experience, "but not so much of the younger generation.

"There are a lot of departments that have their 20- and 30-year veterans, and they are getting older," Stevens said.

To address the issue declining volunteers, Blandford said the county fire department has created an Advanced Large Incident Response Team as a way to increase firefighter numbers at large fires or emergencies where additional crews are needed.

The ALIRT members will begin responding to calls on Jan. 1.

"We have highly trained, highly qualified young people" in the departments, Blandford said, "but they are spread across the county."

The team consists of 32 members, who are from volunteer departments across the county and are members of the city and county paid crews who have volunteered to respond to calls on their days off. While volunteer departments and the county's paid fire crews respond together to all fire calls and emergency runs, the idea behind ALIRT is that the team will be called in as a second crew of firefighters to relieve crews that naturally wear out when fighting a large fire, or need a break while firefighting in the heat or cold.

Because the team members come from every department, activating the team won't strip any one department of its fire coverage, Blandford said.

"We are just pulling one or two firefighters from every department, leaving the rest of the department intact," Blandford said.

"I'm afraid it won't solve the issue in the long term" of declining volunteer numbers, he said. "It's a short-term fix for a long-term issue."

Lyon Township celebrates historic moment, hiring full-time firefighters at last

Susan Bromley, Hometownlife.com Published 8:57 a.m. ET Dec. 9, 2019

At last, Lyon Township has full-time firefighters to cover the community 24 hours a day, 7 days a week, 365 days a year.

After years of shifts uncovered and hopes that “something big doesn’t happen,” Chief Ken Van Sparrentak expressed his pride, happiness and gratitude as four new full-time firefighters and two full-time fire captains were sworn in during a historic moment this week at the township board meeting.

“I’m really pleased, this is a special night for the fire department and the entire township,” Van Sparrentak said. “I thank the board for their support and vision as we hired the first full-time firefighters.”

Moments later, firefighters Chad Scime, Douglas Moebs, Alan Hamilton and Thomas Arnold, as well as captains David Haven and Nathan Sturos, took oaths swearing to protect the constitutions of both the United States and Michigan, as well as faithfully perform the office of full-time firefighters and captains.

“Everyone that was hired earned it, and the community can be proud of these professional firefighters that will be here for years to come,” Van Sparrentak said. “I am proud of all of them and I know they will do great for the township.”

The first shift with full-time firefighters came the day after Thanksgiving, when Van Sparrentak said the department responded to six medical emergencies and one burn complaint.

In the first 11 months of this year, the fire department has responded to about 1,425 calls and is on pace to hit 1,500 calls by the end of 2019.

Those increasing number of calls over the past several years in a fast-growing township led Van Sparrentak to apply for a FEMA grant earlier this year to fund full-time firefighters, as well as simultaneously make a plea to the township board to allow the

hiring to go ahead [amidst a shortage of firefighters](#), regardless if federal funding was approved.

While the grant was not approved, the township [board saw the need for the full-time staff](#) and their salaries and benefits will be covered thanks to a voter approved 2014 fire millage that is good for 10 years. The annual fire department budget is now about \$1.7 million.

The full-time firefighter additions represent an increase to the budget of about 10-20 percent, Van Sparrentak said. While the costs of the six full-time staff is about \$330,000 per year, the budget will see a reduction of about \$170,000 in paid on-call costs, for a net increase estimated at about \$160,000.

The department's current 25 paid on-call firefighters remain integral to providing service in Lyon Township, Van Sparrentak said.

Five of the full-time firefighters were chosen from the department's paid on-call staff, while the sixth was a paid on-call firefighter in Milford. They will provide around-the-clock emergency response from the fire station at 58000 Grand River.

"In the past, we ran into situations where we did not have sufficient personnel to cover the fire station and had to rely on response from firefighters coming from home or work or wherever, which delays response," Van Sparrentak said.

After dedicating time and effort to make the full-time staff a reality, Van Sparrentak is looking forward to being able to reflect on what this means, perhaps after the captains start their first day of work in January.

"I will look back and consider how big this is for our community and department and how long it took to get to this point, but I am so proud of all who were involved and for the support of the township board and the residents," he said. "These are first career firefighters, on the frontline, first responders. Coming without hesitation to an emergency is a big deal. We have full-time administrative, but this gives us boots on the ground."

Firefighter urges council to reinstate emergency medical services for area

| December 05, 2019

BY LANIA ROCHA

SWARTZ CREEK and CLAYTON TOWNSHIP – Should the Swartz Creek Area Fire Department reinstate the long-gone service of responding to medical calls? At least one area firefighter thinks so.

Kyle Ward, a firefighter with the Mundy Township Fire Department and employee of Mobile Medical Response ambulance company, last week asked the Swartz Creek City Council to consider offering emergency medical services through the SCAFD, which covers both the city and Clayton Township.

“It’s a baseline service for the community,” Ward said.

In October, new protocols for dispatching fire departments to medical calls went into effect. County officials have said the move was to provide consistency across jurisdictions.

Fire departments that have medical first responders and EMTs now are dispatched only when the nearest ambulance is farther than eight miles from the scene.

Ward said that often means two ambulances get dispatched, which leaves fewer ambulances in service.

“I have responded five times to Tier 1 medical calls in Swartz Creek (since the protocols were enacted),” Ward said. “Each time, I was at least 11 minutes out. Last time, it was a trouble breathing call, which would be within the scope of the fire department.”

Swartz Creek Area Fire Department Chief Dave Plumb said only a few fire departments in Genesee County respond to medicals, and most are in the outlying, rural areas.

“With us being right by the expressway and having ambulances right on our borders, at this time, I don’t see a need for it,” Plumb said.

He acknowledged that parts of Clayton Township are rural, but emergency responders have easy access to those areas via the interstate and M-routes like Corunna Road (M-21) where ambulance crews often station themselves between calls.

Plumb said ambulances usually are parked at Dye and Miller roads, Dye and Corunna roads, Elms and Corunna roads, and/or Linden and Lennon roads.

“They try to stay right at the edge of Flint Township and Swartz Creek,” he said.

“It’s a straight shot down Corunna Road, it’s an easier path than Gaines or Argentine where they have to cut down all the side roads.”

The SCAFD did provide emergency medical response for about four years back in the 1980s, Plumb said.

“It was not very long,” he said.

The fire department discontinued that service when the Durand-Vernon Area ambulance company came to town and maintained quarters at the public safety building on Civic Drive.

DVA remained in Swartz Creek for 15 to 20 years before Stat opened an office on Miller and Dye roads, Plumb said. Stat is no longer at that location, but Patriot Ambulance Service is located on Commerce Drive.

Plumb said there are not enough calls within the city limits to justify paying an ambulance company to station a rig there.

Mayor David Krueger said the city, at one time, did pay for that privilege but eliminated the service to save money.

In terms of dollars and cents, there are a few more factors to consider.

From a municipal government perspective, additional calls mean a greater financial burden on already-tight budgets. On-call firefighters are paid when they respond. And some government officials have said that an ambulance that is eight miles out often can arrive in the same amount of time it takes firefighters to drive to their stations, suit up and roll out a rig.

On the other hand, tax money funds fire departments, as well as the Genesee County Sheriff Department paramedics. So, if one of those units were to respond to, say, a lift assist, it would cost the taxpayer nothing extra, whereas a private ambulance company would charge for

Grosse Pointe Shores fires reignite debate over public safety fire response

Posted: 6:36 AM, Nov 19, 2019

GROSSE POINTE SHORES, Mich. (WXYZ) — Two house fires in Grosse Pointe Shores over the weekend have re-ignited the debate over the time it takes for police and fire officials to respond to an emergency.

One of the homeowners was satisfied with the response time. However, the other said a police officer showed up within 2 minutes after the 911 call, but firefighters arrived about nine minutes later.

A Grosse Pointe Shores public safety officer told 7 Action News that the first responders were delayed because they came from nearby Harper Woods, answering the call for mutual aid.

Last year, the 7 Investigators looked into the use of public safety officers after three house fires side-by-side in the city of Grosse Pointe.

The report showed that dozens of communities in Michigan use the combined public safety officers model. Critics say the effort saves money, but is not as efficient.

After the report, a Facebook page titled "Time for Grosse Pointe to have a fire department" was established.

Greenwood considers food & beverage tax to help fund police, fire departments

POSTED 5:26 PM, NOVEMBER 25, 2019, BY [ZACH MYERS](#)

GREENWOOD, Ind. -- The Greenwood City Council is considering a new food and beverage tax to bolster staffing levels at city departments, specifically the police and fire departments.

The plan for a 1% food and beverage tax was made possible earlier this year when state lawmakers passed a bill that authorizes Greenwood and several other communities to impose such a tax. Greenwood Mayor Mark Myers and other city leaders hope the money raised by the tax will ultimately help increase the number of police officers and firefighters working throughout the city.

“The revenue generated – much of it from our city’s growing number of visitors – will provide critical funding for quality of life, economic development and public safety initiatives,” Myers said in a statement. “We’ve worked hard to maximize current revenue streams and create capital for essential public services, all while maintaining the state’s fourth lowest tax rate. We have been successful, but the additional funding will provide a much-needed boost on all fronts.”

According to guidelines from the Department of Justice and National Fire Protection Association, Greenwood has just over half the number of police officers and firefighters recommended for a city of its size. City council member and former Greenwood Police Chief Bob Dine says growth and development around the city have outpaced the hiring of new officers and firefighters.

“Usually, the police and fire departments are the last ones to get funding,” Dine said. “So it’s not a Greenwood thing, it’s just a trend.”

“We’re not growing taller with apartment buildings, we’re spreading out with housing developments,” Dine said. “And we need a fire station further on the east side of Greenwood, that is in need now.”

At 1%, the new tax would add \$0.50 on a \$50 dinner bill. Several Greenwood residents and visitors said Monday that’s a tax they could live with if it meant boosting public safety throughout the city.

“I’m never for a tax increase of any kind,” said Rosie Van Deventer. “But in this situation, I would have an opinion that, yeah, I think it’s a good idea.”

“The crime rate isn’t going down, unfortunately,” said Barbara White. “So I think we need to hire more police officers.”

The proposal comes just a few weeks after voters in the Center Grove school district rejected a property tax increase to improve school safety and mental health services.

Greenwood resident Lori Hillstrom says the food and beverage tax seems to be more palatable because it is relatively small and optional.

“Property taxes always make people a little bit nervous when you talk about adding that,” Hillstrom said. “Food and beverage, it’s a choice to eat out.”

The plan would require some creative budgeting because the bill legalizing the tax requires that the revenue be used for parks, capital projects and economic development. Dine said the council should be able to redirect money from the parks budget to the police and fire departments, then replace the funding with money raised by the tax.

“This administration is trying to get public safety built back up, and we have quality police and fire, and we’ll be able to add to that,” Dine said.

A 1% city food and beverage tax would add to an existing 1% Johnson County food and beverage tax for Greenwood diners. That would equal the 2% food and beverage tax already in place in Indianapolis.

The proposal is scheduled for an initial vote before the council on December 2. If it passes, a second vote would take place December 9. If the measure is adopted by the council, the new tax could take effect 60 days later.

MakeWay device can warn drivers when an emergency vehicle is nearby

POSTED 10:50 PM, NOVEMBER 25, 2019, BY [JEFF BERNTHAL](#), UPDATED AT 09:09PM, NOVEMBER 25, 2019

EUREKA, MO - The Eureka Fire Protection District is testing technology designed to keep drivers and emergency responders safe. Division Chief Scott Barthelmass said his department sees dangerous driving nearly every time they respond to a call.

“A vehicle approaching at 60-70 miles per hour when there’s an emergency ahead is dangerous,” he said. “We park engines farther back to be blockers just because of the fact we’re trying to protect our personnel who are helping somebody whose life may already be at risk.”

That’s one reason the Eureka Fire Protection District is testing [MakeWay](#).

It’s a device that’s been installed on emergency vehicles and is automatically activated when the emergency vehicle’s lights and sirens are activated. The activation triggers a verbal warning to

nearby drivers through their phone before it's too late for them to slow down and move over.

"There are hundreds of emergency responders who are killed on our roadways throughout the nation," said MakeWay Safety President and CEO Bill Bader. "This is a nationwide problem."

He said [MakeWay](#) is currently integrated with Google's Waze app and is trying to convince phone carriers and automakers to integrate MakeWay with all their phones and vehicles. Bader said the device has already been successfully tested on a GM vehicle.

He credits the Eureka and Kirkwood Fire Departments and MoDOT for testing the device on their vehicles and hopes someday it will become standard equipment across the country.

"It really is going to save people," said Barthelmass. "It's going to save our personnel from getting killed and it's going to save the motoring public."

The City of Portland Wants to Change the Way It Responds to 911 Calls. Public Safety Unions Are Hopping Mad.

The unions are threatening legal action about a program that starts with one team.

By [Nigel Jaquiss](#) |

Updated November 27 at 5:37 AM

The Portland City Council took what might look like a baby step last week toward more efficient handling of non-emergency 911 calls.

In a break from current practice, in which uniformed, armed police officers in squad cars or a truckload of firefighters respond, commissioners approved a pilot project in which a new "third branch" of the first-responder system, staffed by a specially trained firefighter and a contracted crisis worker, would respond to some non-emergency situations.

The program starts with just one two-person team.

Commissioner Jo Ann Hardesty, architect of the two-responder pilot project, called Portland Street Response, framed it as a much bigger deal.

"This is revolutionary," Hardesty said. "We have not changed our first-response system since the late 1800s."

Police officers and firefighters agree it's significant, but not in a way they like.

In fact, they find the new program so threatening, *WW* has learned, the police and firefighters' unions took the unusual step of trying to block the Nov. 21 council vote—and threatened legal action if the council did move forward.

"This pilot program is expressly intended to transfer [emergency medical service] bargaining unit work from the Portland Firefighters Association bargaining unit to 'crisis workers' outside our unit," wrote Barbara Diamond, an attorney for the PFFA, in a Nov. 20 letter to the city's labor relations manager, copying Hardesty and the city attorney.

The Portland Police Association also raised objections through its attorney in September and October emails, demanding the city enter into bargaining because Portland Street Response, which is slated to serve part of the Lents neighborhood, jeopardized the status quo.

Last week, on the eve of the council vote, Sgt. Daryl Turner, president of the Portland Police Association, broadcast the union's opposition.

"Part of the Street Response project is built on a false premise and perception that Portland police officers are ill-suited to address mental health and homelessness issues in a constructive and safe manner," Turner said in a Nov. 20 statement. "Nothing could be further from the truth."

The full import of Turner's press release was unclear at the time. But documents *WW* obtained through a public records request since then show public safety unions will fight any incursion on their turf.

(Wesley LaPointe)

Portland Street Response will serve two purposes: deal with the vast number of 911 calls related to homelessness, addiction or mental illness; and acknowledge looming financial challenges.

As Hardesty noted, public safety bureaus have changed little over time. But in recent years, their work has changed dramatically.

Last year, for instance, records show Portland Fire & Rescue responded to more than 87,000 calls for service. Just 664 of those calls were to report "structure fires" in which homes or other buildings were ablaze. That's fewer than 1 percent of calls.

Similarly, the Portland Police Bureau responded to about 262,000 calls in the past year. Most did not result from a serious crime; instead, they involved homelessness, mental illness or addiction.

In February, *WW* reported that the most common reason Portlanders called 911 was to report "unwanted persons"—that is, people trespassing or camping on private property (["What's Your Emergency?," WW, Feb. 9, 2019](#)).

Call volume for both bureaus has grown much faster than staffing, leaving first responders feeling overworked and under supported by City Hall.

One solution is to shift responsibility for non-emergency 911 calls to two-member teams specifically trained to work with people dealing with homelessness, mental illness or addiction, rather than to fight crime or fires.

That's what a 30-year-old program in Eugene, called Crisis Assistance Helping Out on the Streets, has been doing. Last year, CAHOOTS handled 25,000 non-emergency calls, sending unarmed, non-uniformed civilians to respond.

That private nonprofit model offers a sense of where Portland could go, a possibility not lost on unions here.

"We have fear, absolutely, that they want to reduce our staffing to pay for other things," says Jason Lehman, vice president of the firefighters' union. "We are absolutely not in favor of that."

When Tom Rinehart, the city's chief administrative officer, explained the policy behind Portland Street Response last week, he cited a need to "reimagine how we allocate public safety resources."

The budget realities are stark: Although fires are rare and crime is in a decadeslong decline, public safety budgets consume most of the city's general fund dollars—53 percent last year, up from 49 percent a decade ago.

In its Nov. 20 letter, the firefighters' union said it was filing an unfair labor practice complaint and pushed for a city response.

"The union demands that the status quo be maintained pending any lawful negotiations," the letter said.

"The city is evaluating the demands and will fulfill any obligation to bargain in good faith," says City Attorney Tracy Reeve.

But Mayor Ted Wheeler, who worked with Hardesty to launch Portland Street Response, says it's the future. He complimented the work of police and firefighters last week, but his enthusiasm for the program signals he is prepared to lock horns with public safety unions as he enters an election cycle.

"As our community's needs change, so too must our response to those needs," Wheeler tells *WW*. "The Portland Street Response program represents a common-sense solution for addressing the needs of people who are in crisis on the streets, especially when criminal activity is not involved."
