

Northville Plymouth Fire Advisory Board Meeting Agenda

Monday, September 21, 2020 4:00 p.m.

This meeting will take place online via Zoom.

<https://us02web.zoom.us/j/82973836766>

Phone in 1-312-626-6799

Meeting ID: 829 7383 6766

Passcode: 667912

Statement on explanation of the reason why the public body is meeting electronically:

On March 10, 2020 the Governor of the State of Michigan declared a State of emergency across the State of Michigan under section 1 of Article 5 of the Michigan Constitution of 1963, the Emergency Management Act, 1976 PA 390, as amended, MCL 30.401 – 421, and the Emergency Powers of the Governor Act of 1945, 1945 PA302, as amended, MCL 10.31 – 33. These sections provide the Governor with broad powers and duties to cope with dangers to this state or to the people of the state.

As a part of the response to the emergency, the Governor has deemed it reasonable and necessary to temporarily suspend rules and procedures relating to physical presence at meetings and hearings of public bodies and other governmental entities in Michigan. These public bodies and entities must continue to conduct public business during this emergency. Due to the emergency situation and the request of the Governor to not gather in groups of 10 or more it is necessary for some public boards to meet electronically.

- 1) **Roll Call** – Chair Marques Thomey, Vice Chair Brian Turnbull, Members Paul Sincock, Pat Sullivan
- 2) **Appointment of new NPFAB Member** – Chief Jim Rachwal, Salem Township Fire Department
- 3) **Approval of Meeting Minutes** - NPFAB Meeting Minutes from June 15, 2020
- 4) **Fire Prevention**
- 5) **Training Report**
- 6) **Personnel Staffing Report**
- 7) **Run Volume Report**
- 8) **Review of Northville Station Response Times**
- 9) **Review of Plymouth Station Response Times**
- 10) **Informational Stories on Fire Services**
- 11) **Other Business** that may come before the Northville – Plymouth Fire Advisory Board
- 12) **Next Meeting Date**
- 13) **Adjournment**

Appointment of Chief Jim Rachwal of Salem Township Fire Department

To the

Northville Plymouth Fire Advisory Board

The following Resolution was moved by _____ and seconded by

WHEREAS The Intergovernmental agreement between the City of Northville and the City Of Plymouth for fire services requires a five member Northville – Plymouth Fire Advisory Board (NPFAB), and

WHEREAS The membership of the board shall be made up of one elected official from each Member community, the city manager from each community and one independent Member who has fire leadership experience in a paid-on call fire department, and

WHEREAS There is an opening on the NPFAB that needs to be filled.

NOW THEREFORE BE IT RESOLVED THAT the Northville Plymouth Fire Advisory Board does hereby appoint Chief Jim Rachwal of the Salem Township Fire Department to the NPFAB, effective immediately.

Northville Plymouth Fire Advisory Board

Meeting Minutes

Monday, June 15, 2020 4:00 p.m.
Zoom Meeting 886 5599 0757

ROLL CALL

Present: Chair Brian Turnbull, Vice Chair Marques Thomey, Member Paul Sincock, Member Pat Sullivan

Excused: Member Robert Vogel

Others Present: Chief Steve Ott, Director Al Cox, Captain Matt Samhat

APPROVAL OF MEETING MINUTES

Member Sincock made a motion, seconded by Member Sullivan to approve the minutes of the April 6, 2020 meeting.

ROLL CALL VOTE – MOTION PASSED 4-0

PERSONNEL STAFFING REPORT

Chief Ott reported that there are 48 members of the department at this time. Four additional firefighters are in the hiring process, and it's anticipated that another five will apply after the current academy concludes.

RUN VOLUME REPORT

Chief Ott reported that runs were down from the previous year, with 595 total runs January through May.

RESTARTING INSPECTIONS AND TRAINING

Chief Ott reported that staff members have been attending online training and will return to in-person training this month. Routine inspections are scheduled to be resumed this month as well, since more businesses are open.

REVIEW OF STATION RESPONSE TIMES

Chief Ott reported that the average response time from Station One (Northville) was 7:56 (minutes/seconds) in March, 9:33 in April and 7:43 in May from the time of the call to the arrival of the first fire unit on scene. He noted that there were some dispatch delays in April, causing the response times to increase. At Station Two (Plymouth) the average response time was 9:25 in March (9:00 for emergent), 9:14 in April (8:34 for emergent) and 9:04 (7:34 for emergent) in May.

THIRD QUARTER BUDGET REPORT

Chief Ott reviewed the third quarter budget report, noting that there was a decrease of approximately \$150,000 in wage expenditures so far this year.

OTHER BUSINESS

Member Sincock offered a motion, seconded by member Sullivan, to name Vice-Chair Thomey to serve as chair of the NPFAB and Chair Turnbull to serve as the vice chair.

ROLL CALL VOTE- MOTION PASSED 4-0

NEXT MEETING DATE

The next meeting will be on Monday, Sept 21. The meeting will be hosted by Northville.

ADJOURNMENT

Member Sullivan made a motion, seconded by Member Sincock, to adjourn at 4:28 p.m.

ROLL CALL VOTE – MOTION PASSED 4-0

Respectfully submitted,

Paul J. Sincock, Recording Secretary

Northville City Fire Department

Serving the Cities of Northville & Plymouth

FIRE PREVENTION DIVISION APRIL- AUGUST 2020 REPORT ON ROUTINE FIRE INSPECTIONS

The Fire Prevention Division is headed by the Fire Marshal, who is assisted by three part-time, State-licensed Fire Inspectors. The Fire Marshal conducts plan reviews, meets with owners, contractors and other City officials, oversees the testing of fire suppression and fire alarm systems in new occupancies, and oversees the work of the Fire Inspectors.

The principal work of the Fire Inspectors is the conduct of routine business fire inspections. In addition, they may work with the Fire Marshal on suppression system and alarm tests, meetings with owners, contractors and other officials, assist in the conduct of pre-plan site visits and otherwise participate in the work of the Fire Prevention Division.

Routine business fire inspections consist of new inspections, and re-inspections, when the Fire Inspector returns to check on the status of violations noted during the new inspection. Most routine fire inspection activity was suspended on March 18, 2020, as a part of our response to the COVID-19 situation. We resumed such activities in late June, 2020, as businesses were allowed to re-open. For the period covered by this report, the following routine business fire inspections were conducted:

Station 1 (Northville)

New Inspections 28

Re-Inspections 16

Station 2 (Plymouth)

New Inspections 47

Re-Inspections 4

Northville City Fire Department

Serving the Cities of Northville & Plymouth

TRAINING REPORT APRIL -- AUGUST 2020

Most Department training activity was suspended March 18, 2020 due to the COVID-19 situation. On-line training resumed May 14, 2020, and in-person training resumed June 11, 2020 in accordance with guidelines from the State Fire Marshal. Outside training activity remains somewhat curtailed at this time.

During the period covered by this report, the Department conducted or participated in 39 training sessions, devoting approximately 926 personnel hours to training activities.

Regular Department Training

24 sessions; 805 personnel hours

Topics included:

Ladder operations, pump and foam operations, initial fire attack, first responder mental health awareness, emergency response to civil disturbances, hose advancement, portable radio use, scene safety, tactics, Incident Command System (ICS), EMS refresher training, Haz Mat response, High/Mid rise fire attack, establishing a water supply, draw up epinephrine and naloxone protocols, hazard mitigation, lock out/tag out, use of four-gas meters, drivers' training.

Individualized Department Training

5 sessions, 11 personnel hours

Topics included:

Drivers' training, ladder operations, aerial operations, roof ventilation, probationary binder check-offs.

Outside Training

10 sessions; 110 personnel hours

Topics included:

HMRT (Haz Mat) Team training, Fire Instructor 1 class, fire alarm systems, Metro Airport Disaster Drill.

JANUARY – AUGUST 2020 RUN VOLUME REPORT

Total Runs:	968
Medical	684
Fire/Other	284

Station 1

Total Runs	414	(42.8%)
Medical	262	
Fire/Other	152	

Station 2

Total Runs	554	(57.2%)
Medical	422	
Fire/Other	132	

NOTES:

1. Run volume is down about 10% over the same period in 2019, with an 8.9% decrease in Medical calls and a 12.6% decrease in Fire/Other calls.
2. Overall, year to date, Medical calls make up 71% of the total call volume. Medical calls represent 63% of the runs at Station 1, and 76% of the runs at Station 2.
3. The distribution of calls between the two Stations remains close to the historical 58% -- 42% split.

New Fellowship Provides Hands-on Training in Emergency Medical Services

The one-year training gives emergency medicine physicians additional education in prehospital medicine.

File photo: Nathaniel Hunt, M.D., performs critical care training procedures on a patient simulator. Credit: Michigan Medicine Emergency Medical Services Fellowship

Emergency care is more than just treating a patient in the hospital emergency department.

“A large component of emergency care is not anywhere near an emergency department,” says [Christine Brent, M.D., FAEMS](#), an assistant professor of emergency medicine at Michigan Medicine. “Prehospital emergency care includes the care you would traditionally think of provided by teams such as paramedics

and first responders, as well as medical planning for mass gatherings and large events, out-of-hospital emergency preparedness and wilderness extrication.”

According to Brent, most emergency medicine residencies do not offer adequate training in prehospital care, or care that happens before a patient is brought to the emergency department. This led Brent and her colleagues, [Mark Lowell, M.D.](#), and [Graham Smith, M.D.](#), to develop the [Michigan Medicine Emergency Medical Services Fellowship](#).

“We wanted to create a fellowship that puts our physicians out in the field for hands-on training in prehospital emergency care,” says Brent, who will serve as the director of the fellowship. “In order to do that successfully, we ensured that our partners in EMS, such as our community EMS transport agencies and local fire and police departments, are all involved in the training to give our fellows an outstanding and diverse educational experience. Our goal is to develop future physician leaders in emergency medical services, and we are grateful to have such supportive partners in that endeavor.”

The fellowship provides trainees with learning opportunities in the various areas of prehospital emergency care which they may not have been exposed to in the past.

“Over the year-long program, the fellows will have training in the breadth of EMS medicine, including ground EMS, aeromedical EMS, disaster medicine, special operations rescue medicine, research, administrative EMS, wilderness EMS and event medicine,” she says.

“As examples, fellows will utilize an EMS physician vehicle to respond directly to 911 calls in the field, as well as provide online medical direction over the phone or radio, resulting in robust training in ground EMS,” Brent says. “They will help provide medical education and quality assurance to prehospital providers, and they will serve as flight physicians with [Survival Flight](#) to learn about air medical EMS and critical care transport medicine. They will collaborate with event planners to design the medical support for mass gatherings in Ann Arbor, such as football games and road races.”

She adds, “Set within the context of administrative oversight of the entire EMS system, the program is designed so that the fellow truly becomes an expert in all facets of prehospital care.” Fellows that successfully complete the program become board eligible in EMS medicine.

Left to right: Nathaniel Hunt, M.D., Mark Lowell, M.D., Christine Brent, M.D., FAEMS, Graham Smith, M.D., Spencer Masiewicz, D.O.
Michigan Medicine Emergency Medical Services Fellowship

The fellowship program kicked off this year with its first two fellows, [Nathaniel Hunt, M.D.](#), and [Spencer Masiewicz, D.O.](#) Here, they explain the unique aspects of the fellowship and how it will help them attain their future goals in emergency medicine care.

Why did the Michigan Medicine EMS Fellowship interest you?

Hunt: I was a paramedic before going to medical school and maintain an interest and passion for prehospital medicine. I knew going into medical school that I was going to do an EMS fellowship. Having the opportunity to train with and learn from our prehospital providers, and to do a little teaching as well, is exciting. We have so many amazing agencies and people that it really is a pleasure to get to

know them and work alongside them to serve our population and advance the field.

Masiewicz: I've had a career interest in the EMS world for some time, but the goal of the fellowship for me is to gain the skills and training necessary to become an EMS medical director for a larger metropolitan system. The EMS subspecialty as a whole is relatively new, with board certification becoming available in 2012. Despite being new, it's a rapidly growing field with approximately 70 programs nationwide.

Learning how to interface with EMS from an emergency medicine physician perspective is something inherent to every residency training program, but managing a prehospital system is far different. Prehospital systems are diverse and can vary greatly from city-to-city and more so from state-to-state. This fellowship allots me an extra year of training to focus on and fully explore the EMS world from an oversight perspective, including system design and administration, research, special operations and clinical care.

What would you say is the most unique factor of this fellowship?

Hunt: Our fellowship is brand new so we really have an amazing opportunity to mold and shape the face of this program for years to come. I'd also like to thank all of our fire and police departments and EMS services for the incredibly warm welcome and support we have felt while rolling out this program. We are so excited to partner with these agencies and advance the field for our citizens.

Masiewicz: The most alluring aspect for me is the quality and versatility of the program here at Michigan Medicine. The ability to explore the different facets of EMS at such depth is hard to find and unique.

Survival Flight is a great example and well-known program of prehospital medicine care in Ann Arbor, but there's so much more to it. It's unique to work in programs such as event medicine – college sports games and marathons – where we interact with not just local authorities and EMS agencies, but also federal agencies, such as the U.S. Department of Homeland Security. In special operations

medicine we work with the local Tactical Rescue Squad, Hazardous Materials Management Team, also known as HAZMAT, and more. The list can go on and on.

The fellows serve as flight physicians with Survival Flight.

Michigan Medicine Emergency Medical Services Fellowship

Now that you are a couple of months into the fellowship, what is a typical day like in this program?

Hunt: Our schedule varies pretty dramatically. Some days are local and regional EMS leadership meetings, while other days are filled with flight time with Survival Flight or ground EMS time with Huron Valley Ambulance, Livingston County EMS and our fire and police colleagues. Several times a month we are training with the technical rescue, HAZMAT, dive or tactical teams. We also still work shifts in local emergency departments. It really varies a lot, which is part of the fun, in my opinion.

Masiewicz: One of the most fulfilling qualities about the fellowship program is that every day is different. I love being able to practice medicine outside of the traditional emergency department setting. One day I could be on multiple conference calls for regional and statewide protocol meetings, and the next I could

be the physician on flight with the Survival Flight team. There are nearly endless possibilities to what my work week could entail.

What are you hoping to learn over the course of your fellowship?

Hunt: Having previous paramedic and flight experience, I am already very comfortable with the transport side of medicine. I hope to spend much of my time learning the administrative side of things so I can safely and effectively administer a prehospital system. I am really looking forward to learning more about the fire and police services in our areas and to train with our special operations teams.

Masiewicz: My main goals are to learn more about EMS system design and administration, prehospital medicine research, coordination with special operation teams and direct patient clinical care outside of the emergency department.

What is your ultimate career goal and how is this fellowship helping you achieve it?

Hunt: My goal with this fellowship is to gain the training and experience to be a medical director for an EMS system in the future.

Masiewicz: The goal is to become an EMS medical director for a larger metropolitan system. Those positions are becoming increasingly competitive and it's almost required now for academic or metropolitan directors to be fellowship trained. The fellowship training also strengthens my resume and allows me to be a better applicant for positions in an increasingly competitive emergency physician job environment.

Michigan announces statewide EMS Naloxone Leave Behind Program

EMS responses for opioid overdoses in Michigan were 22% higher from April to July this year compared with the same time period last year, according to state health department data

Sep 1, 2020

Justin P. Hicks

LANSING, Mich. — Michigan is launching a new program to provide more overdose-reversal kits to people at the scenes of non-fatal opioid overdoses in an effort to combat the recent rise in overdose fatalities.

On Monday, Aug. 31, the Department of Health and Human Services announced its EMS Naloxone Leave Behind Program, a partnership with emergency medical services providers that will hand out extra naloxone kits. Each kit comes with the medication to reverse opioid overdoses, and instructions for use.

The program will allow first-responders to leave naloxone kits with the patient, family and friends, or bystanders at the scene of a non-fatal overdose. Survivors are at high risk for repeated overdoses, so providing naloxone to these individuals and their loved ones is particularly important.

“Far too many Michiganders die from opioid overdoses and tragically the opioid crisis has only gotten worse during the pandemic,” said Robert Gordon, MDHHS director, in a prepared statement. “That’s why MDHHS is proud to work with the state’s EMS providers to give Michigan families another resource to prevent overdose deaths. It is more urgent than ever that we take decisive action to prevent overdose deaths and dismantle the stigma around addiction.”

In 2018, overdoses killed 2,599 Michiganders. Nearly 80 percent of those deaths involved opioids.

This year, county health departments around the state have reported increases in opioid-related deaths as the stress and anxiety related to coronavirus and coinciding economic recession have placed added pressures on individuals. A spokesperson for MDHHS said it was too soon to look at statewide overdose data for 2020, but they noted a “deeply concerning trend” in the rising number of 911 calls related to opioid use during the pandemic.

From April through July 2020, EMS responses for opioid overdose in Michigan were 22% higher than the same period in 2019, according to statewide data compiled by MDHHS. Responses increased in all regions of the state and in every age demographic except for those aged 65 and older.

The state announced its new naloxone program on Monday in recognition of Overdose Awareness Day -- a day meant to “memorialize the individuals whose lives have been lost to an overdose, and marks an occasion to offer support to the family, friends and communities impacted by this epidemic,” according to MDHHS.

Naloxone, commonly known by the brand names Narcan and Evzio, has been used by EMS providers to treat overdoses for more than 30 years. The nasal spray allows an individual experiencing an opioid overdose to breathe again, and does not have negative effects if opioids are absent.

“Michigan’s EMS providers are standing by 24/7 to treat medical emergencies including helping prevent overdose deaths,” said Jack Fisher, Michigan Association of Ambulance Services (MAAS) president and executive director of Medic 1 Ambulance in Berrien County.

“We look forward to having this extra resource to combat the serious overdose problem in our state, but still urge Michiganders to call 911 in all emergencies, even if naloxone has already been administered.”

Medical Control Authorities, which act as local EMS governing boards, will determine whether to adopt the new leave-behind program, according to state officials. EMS agencies will be able to order naloxone kits as needed from the state’s online portal where [community organizations can request free naloxone](#).

The state health department has \$4.98 million in funding for the naloxone portal for the current fiscal year, which is roughly enough for 66,396 kits, according to MDHHS. The funding is from the State Opioid Response grant, a federal grant that funds much of the state's opioid crisis response work.
