RE: Authorization to Hire – Finance Department

---

### Background

The City Commission will recall that on April 8, 2026, they were notified about a departure from the Finance Department. With the recent departure, we are left with a gap in staffing from what has been approved by the City Commission in the current 2025-26 and 2026-27 budget(s), and we would like to begin the process of trying to fill that vacancy. Before we can move forward, we need to seek the City Commission's authorization.

The City Commission adopted the Employment Ordinance on August 7, 2000, and it requires that the City Manager seek advance and express approval prior to filling any full-time position. The City Administration is seeking the approval of the City Commission for one employee to move forward with the hiring procedure.

This position is in the budget, and it does not expand our F.T.E. count beyond what was previously authorized. We anticipate that it may take some time to be able to fill this open position, as we are looking at potential reorganization of roles and responsibilities.

### Recommendation

The City Administration recommends that the City Commission provide prior and express approval to begin the hiring procedures for a full-time employee in the Finance Department in accordance with the City's Hiring Ordinance. We have attached a proposed Resolution for the City Commission to consider regarding this matter.

Should you have any questions regarding this matter please feel free to contact me in advance of the meeting.

Consideration of hiring FTE

### **Analysis:**

Finance accepted the resignation of one of its staff members in April. The loss of this staff will disrupt the current service. This vacancy will increase the workload of our current staff. The Finance team provides service both internally and externally. This new staff will augment daily functions of the finance department. They will allow the finance team to have workloads that are manageable and sustainable.

### **Proposed Action:**

Provide the authorization to add 1 FTE to the Finance Department to fill vacancy.

RESOLUTION

The following Resolution was offered by Comm. \_\_\_\_\_ and seconded by Comm. \_\_\_\_\_.

- WHEREAS The City Commission did adopt what is commonly known as the Hiring Ordinance in August of 2000; and
- WHEREAS The Ordinance requires that the City Administration seek prior and express approval for any full-time position; and
- WHEREAS The City Administration is seeking prior and express approval for the hiring of a Full-time employee to fill a vacancy in the Finance department.

NOW THEREFORE BE IT RESOLVED THAT the City Commission of the City of Plymouth does hereby authorize prior and express approval to hire a full-time employee in the Finance Department. The City Administration is authorized to proceed with hiring the new employee.

RE: Authorization to Hire PD

---

### Background

The City Commission will recall that on June 9, 2026, they were notified about a departure from the Police Department. With the recent departure and other staffing challenges, we are left with a gap in staffing from what has been approved by the City Commission over the past few months, and we would like to begin the process of trying to fill that vacancy. Before we can move forward, we again seek the City Commission's authorization.

The Employment Ordinance, adopted by the City Commission on August 7, 2000, requires the City Manager to obtain advance approval from the Commission before filling in any full-time position. Accordingly, City Administration is requesting authorization to proceed with the recruitment and hiring process for one vacant position.

This position is included in the approved budget and does not increase the City's authorized full-time equivalent (FTE) staffing level. Due to current recruitment challenges within the law enforcement profession, filling this vacancy may take some time, as sponsorship of a candidate through a police academy may again be necessary.

### Recommendation

The City Administration recommends that the City Commission provide prior and express approval to begin the hiring procedures for a police officer in accordance with the City's Hiring Ordinance. We have attached a proposed Resolution for the City Commission to consider regarding this matter.

Should you have any questions regarding this matter please feel free to contact me in advance of the meeting.

RE: Authorization to Hire – Community Development

---

### Background

The City Commission will recall that during our annual training over the holidays, they were informed of the retirement of the Office Manager in Community Development. The employee retired on March 20, 2026, and since that time, Community Development has looked at their operations and assignment of duties. We currently have a ¾ time employee in that department and we would like to bring them to full-time to assist in the management of that office as well as expand the current duties beyond their current scope. Before we can move forward, we again seek the City Commission's authorization.

The Employment Ordinance, adopted by the City Commission on August 7, 2000, requires the City Manager to obtain advance approval from the Commission before filling in any full-time position. Accordingly, City Administration is requesting authorization to proceed with the recruitment and hiring process for one vacant position.

### ADMINISTRATIVE RECOMMENDATION

To: Chris Porman, City Manager  
From: Greta Bolhuis, AICP, Planning and Community Development Director  
Date: June 10, 2026  
Re: Authorization to Hire

#### BACKGROUND:

On March 20, 2026, a full-time staff member of the Community Development Department retired. Departmental operations have been in transition since that time, and we have hired and retained part-time staff. One of the staff members is a  $\frac{3}{4}$ -time employee. We would like to promote the  $\frac{3}{4}$ -time employee to full-time. Responsibilities of the full-time position will continue to include providing administrative assistance, while expanding to coordinate boards and commissions, develop GIS maps and related materials, research and prepare draft ordinance amendments, compose technical correspondence, assist with economic development initiatives, and support planning and zoning activities. Per the City of Plymouth Hiring Ordinance adopted in August 2000, we are requesting approval to proceed with hiring a full-time employee for the Community Development Department.

#### RECOMMENDATION:

It is our recommendation that we seek approval to hire a full-time employee to fill the vacancy which was created by the retirement. This is a position that was budgeted for in the current year and in the budget for subsequent years. Should you have any questions, please feel free to contact me.

RESOLUTION

RE: Designate SEMCOG Delegate and Alternate

---

### Background

The Southeast Michigan Council of Governments (SEMCOG) is the regional planning organization serving the seven-county Southeast Michigan area. Membership is available to counties, cities, villages, townships, intermediate school districts, and community colleges.

The delegate is required to be an elected official, while the alternate may be an elected official, staff member, planning commission representative, or resident selected by the community.

The General Assembly serves as SEMCOG's governing body and provides member communities with an opportunity to participate in regional planning discussions and decision-making on matters affecting Southeast Michigan.

### Recommendation

The City Administration recommends that the City Commission designate the Mayor as the Delegate and the Mayor Pro-Tem as the Alternate to the SEMCOG General Assembly. We have prepared a proposed Resolution for the City Commission to consider regarding this matter.

CC: S:\Manager\Porman Files\Memorandum - GLWA Water Service Contract Reopener - 06-15-2026.docx  
Date: June 8, 2026  
RE: GLWA Water Service Contract Re-opener

---

### Background

The City Commission is aware that the City of Plymouth had a 30-year contract with the City of Detroit Water and Sewerage Department (DWSD) and Board of Water Commissioners that was subsequently assigned to Great Lakes Water Authority (GLWA) in 2015 when an agreement was reached between the two parties to lease the assets of the Detroit water supply and sewage disposal systems.

As a part of our contract with GLWA, there are scheduled reopeners which allow both parties to amend the contract terms, if needed. The reopener is needed to allow the city to make sure that our volumes (volume purchases, peak day, peak hour) are all in line with expectations. This allows us to add volume for things like the Pulte Development, Starkweather Lofts on Plymouth Road, new houses behind Starkweather school and so on. Also, this will allow GLWA to plan for future volume needs as well as to help plan for the peak day, peak hour calculations for their operations.

Based on our previous usage and more specifically usage related to Max Day and Peak Hour, we are able to reduce our values, which hopefully results in potential cost savings next year and beyond, or at least not increase as much. It should be noted that we have been very careful about the peak day and peak hour calculations due to the significant costs if we exceed the limits in the contract. Neighboring communities have experienced penalties from exceeding contract limits in the past and that is why our education of the residents is important. Our residents have been very good at setting up sprinkler systems to operate during the overnight hours and this helps us ease the load on peak day and hour calculations.

We have attached some material from GLWA as additional background information. Exhibit A is not included for safety and security reasons, but will be recorded as part of the contract as it shows diagrams of our water system. In addition, we have also attached the proposed agreement.

### RECOMMENDATION:

The City Administration recommends that the City Commission adopt Amendment #3 to water service contract between the City and the Great Lakes Water Authority. The agreement has some minor changes in contract volume and planning volume. The contract was developed collaboratively between GLWA and the City as well as our Engineer. We have attached a proposed Resolution for the City Commission to consider regarding this matter. Should you have any questions in advance of the meeting please feel free to contact me.

RE: Employee Manual Updates

---

### Background

The City Commission may be aware that from time to time we need to update our employee manual in order to comply with changes in the law at the State and Federal levels and to update our documents to comply with our current operations. This update is also a result of the City Commission's Strategic Plan related to recruitment/retention. The last time we updated the Employee Manual was in May 2025 and before that it was March 2023.

The City's Labor Attorney from Plunkett Cooney has had significant input into these updates. In addition, our Insurance Carrier has also weighed in on the various changes and updates.

We have attached a memorandum from Tom Alexandris which gives a very detailed outline of the proposed changes and new amendments. In summary, there is a proposed change in clarifying the language of personal time; there is a proposed change to insurance which gives the city more flexibility in how the portion of city contribution to health care is calculated; language clarification in the Hiring Policy; copies of Organization Charts (which appear in the Budget), and minor clerical errors and formatting of the document.

### Recommendation

The City Administration recommends that the City Commission adopt the proposed changes as indicated for the June 2026 updated employee manual. The changes have been reviewed by both the City Attorney's Office and the City's Insurance Carrier. The City's Strategic Plan drives some of the changes as it relates to staff development, retention and recruitment.

We have attached a proposed Resolution for the City Commission to consider regarding this matter. Should you have any questions in advance of the meeting please feel free to contact either Tom or myself.

Subject: Employee Manual Changes 2026

In a continuing effort to review our policies to ensure we are complying with various laws at the state and federal levels, we look at them every year and sometimes more. In addition, as part of our overall retention and recruitment efforts, we are constantly looking to ensure that the City of Plymouth is a place people want to come to work here and those that are here wanting to remain. We have implemented programs/policies such as educational reimbursement, remote work policy, modifying retention/retirement programs to continue our efforts in keeping the City of Plymouth competitive in today's employment market.

As part of the adopted 2026 One-Year Tasks for the strategic plan, in goal area two – Staff Development, Training and Succession, it states one of the key objectives is 'Review/Update Employee Manual including job descriptions, organizational charts, etc.' Updating specific policies directly meets this objective and the 1-year task.

  - The City maintains organization charts for all departments. These are updated periodically as there are changes to departments to reorganizations, retirements, new positions, etc. These charts are also available in the budget each year.
- Correct other minor clerical errors, formatting issues and table of contents.

All negotiated contracts with the three bargaining units (COAM/POAM/TPOAM) supersede the employee manual if there is a conflict. As contracts are up for renewal, certain elements will be discussed for inclusion into the agreements.

RE: Community Development Permit Fee Schedule Update

---

### Background

City Administration periodically reviews building permit and development fees to ensure they remain fair, competitive, and reflective of the actual cost of providing services. As operational expenses and contracted service costs continue to increase, it is important that the City's fee structure keeps pace with those changes to support efficient service delivery and maintain a high level of customer service for residents, businesses, and development partners.

As part of this review, staff evaluates the City's cost of service and compares fee schedules with those of neighboring communities to ensure the city remains both fiscally responsible and regionally competitive. The Community and Economic Development Department has completed its analysis and is recommending a revised fee schedule for Commission consideration.

The proposed updates are intended to better align fees with current service demands, simplify portions of the fee structure, and improve the permitting and development review process for contractors, developers, and applicants. These changes will help ensure that the Department has the resources necessary to continue providing timely and effective services while supporting ongoing development and investment within the community.

For additional background, a memorandum and supporting report prepared by Greta Bolhuis is attached for the Commission's review.

### RECOMMENDATION:

The City Administration recommends that the City Commission adopt the attached fee schedule. The fee schedule can be adopted by Resolution of the City Commission and implemented on July 1, 2026, as outlined in the attached memorandum.

Should you have any questions in advance of the meeting please feel free to contact Greta, or myself.

## ADMINISTRATIVE RECOMMENDATION

To: Chris Porman, City Manager  
From: Greta Bolhuis, AICP, Planning and Community Development Director  
Date: June 10, 2026  
Re: Community Development Department Fee Schedule Update 2026-2027

### BACKGROUND:

The Community Development staff reviews the fee schedule annually as part of our budget. This annual review allows staff to evaluate fees, applications, policies, and procedures. It is an opportunity to discuss any questions, concerns, and feedback staff members have received throughout the year, and aim to remedy any issues encountered. Staff reviewed the current fee schedule and is recommending several updates. Fees are used to cover the cost required to complete inspections, and the administrative costs required to process, review, and issue permits, and process and review planning and zoning projects.

A comprehensive evaluation of building, plumbing, electrical, mechanical, and planning/zoning fees has been completed and resulted in updates to the fee schedule. All permit types are proposed to have the same minimum fee for consistency. Please see the attached current and proposed fees. The proposed changes are "tracked" in red.

Assuming the proposed changes to the fee schedule are adopted, the adjustment to our fees will allow us to recoup the costs associated with the significant amount of staff time required to issue, track, schedule and log inspection information, close out the affected permits, and manage planning and zoning projects. The changes are proposed to cover increasing labor and administrative rates, as well as increased vendor pricing.

These fees are proposed to change for the 2026 to 2027 fiscal year. Staff recommends that these permit fees be reviewed annually as part of the City Commission's budget planning process.

### RECOMMENDATION:

Staff recommends that the attached proposed fee schedule be reviewed and approved by the City Commission to take effect on July 1, 2026.

Attached please find the proposed fee schedule. A sample resolution related to this matter has been attached for the commission to consider. Should you have any questions in advance of the meeting please feel free to contact me.

RE: Cemetery Rates & Rules Review FY 2026 - 27

---

### Background

Each year, the Cemetery Board of Trustees holds a meeting to review a number of rules and regulations as well as pricing information for services at Riverside Cemetery.

In addition to meeting about the Mausoleum construction project, the Cemetery Board of Trustees has reviewed the material from City Administration related to pricing of cemetery services, as well as the rules and regulations. Based on the review, the Board has recommended to the City Commission that the attached rates and rules should be adopted, effective July 1, 2026, and they requested that the City Commission confirm this recommendation.

We have attached additional background material from Greta and Adam for your reference. The proposed and recommended changes are tracked for ease of reading.

### Recommendation

The City Administration recommends that the City Commission accept the recommendation from the City Cemetery Board of Trustees related to rates for services and to make adjustments in the cemetery rules. We have prepared a proposed Resolution for the City Commission to consider regarding this matter.

Should you have any questions in advance of the meeting please feel free to contact me.

## ADMINISTRATIVE RECOMMENDATION

To: Chris Porman, City Manager  
From: Municipal Services Administration *gerb* *AG*  
Date: June 10, 2026  
Re: Riverside Cemetery Rates and Rules Update 2026

---

### BACKGROUND:

The City of Plymouth Department of Municipal Services performs an annual review of all fees related to the operation of Riverside Cemetery. The Administration received rates from several publicly owned and operated cemeteries within the State of Michigan to compare to Riverside Cemetery. This year, staff also reviewed rates from private and non-profit cemeteries in our geographic proximity. This information assures us that the current rates are in-line with other cemeteries and make any necessary adjustments.

As you are aware, prices increased in 2025 for graves, mausoleum, and opening and closings. For the 2026 to 2027 fiscal year changes are proposed to clarify disinterment rates and add a fee for second single crypt opening and closing. The changes to disinterment rates are proposed to recover fees associated with the administrative requirements of scheduling and coordinating the disinterment and establishes a fee for cremain disinterment. The proposed disinterment fees set a base rate which is double the Sunday/Holiday rate for interment. Interment rates were evaluated last year with the 2025-2026 increases. The addition of a second opening and closing for a single crypt became necessary as full-body burial becomes less popular. This allows the cemetery to be nimble when crypt purchasers wish to use the space for cremain entombment. Setting a rate for the second opening and closing on single crypts ensures staff time is covered in the event a crypt needs to be opened a second time. The rates were recommended for adoption by the Cemetery Board of Trustees at their May 27, 2026 meeting. A copy of the proposed rates is attached.

Additionally, the City of Plymouth Department of Municipal Services performed an annual review of the Riverside Cemetery Rules. The changes proposed include restricting the scheduling of a disinterment to between April and November, reducing the time period a grave or mausoleum space can be on hold to 6 months, and allowing one vase and one porcelain portrait on crypt and niche fronts. A tracked changes copy of the rules is attached.

RE: Authorization to Purchase – 2026 Titan Olympian Leaf Pro+ Vacuum Trailer

---

### Background

The Department of Municipal Services (DMS) bulk leaf collection program remains one of the most valued seasonal services provided to City residents. The city offers two designated pick ups weeks, which always turns into additional collection efforts as crews try to collect all the leaves before the snow falls. Many times, crews can beat the weather, but last year was not the case. Following the final pick up, crews sweep the streets to get them clean before winter begins.

While the current Claw style system is the most efficient collection method, it is not the most practical in a number of areas. Along some of our Major streets, such as Mill St., Sheldon, etc. residents cannot place them in the street along the curb and must place them on the tree lawn area. As such, the Claw is not the right tool for the job. Last winter when the snow fell and our crews needed to plow the snow off the streets, the leaves that were not collected yet, went with it on the tree lawn. Again, the Claw is not the right tool for collection at that time. Having a leaf vacuum style system allows for a much cleaner and less damaging to the tree lawn solution.

To maintain service reliability and operational efficiency, replacement of the previous leaf vacuum system was identified as a capital improvement need in the FY 2026-27 Budget.

City staff conducted extensive research on available leaf collection systems, including demonstrations of various equipment models and discussions with neighboring municipalities regarding operational performance and maintenance considerations. While staff initially evaluated a leaf collection body compatible with the City's SwapLoader truck, further review determined that the increased height of the unit would present potential clearance concerns with overhead utility lines and tree branches.

Staff subsequently evaluated self-contained trailer-mounted systems, which offer a lower overall height of approximately 10 feet, reducing clearance concerns while maintaining large-capacity collection capabilities. These units are equipped with hydraulically controlled, joystick-operated vacuum arms that allow efficient collection along curbs and tree lawns while enabling operation by a single equipment operator. The equipment will improve productivity and reduce staffing requirements from the current three- to four-person crews to a two-person crew.

Following this review process, staff determined that the Titan Leaf Solutions Olympian Leaf Pro+ 30-Yard Leaf Collection Trailer represents the best overall solution for the City's leaf collection program. The Olympian Leaf Pro+ is one of the few systems available with a ride-on operator station and is the only model identified with a fully enclosed, climate-controlled cab, allowing for safe and efficient operation in all weather conditions.

The proposed equipment is available through the competitively bid Sourcewell cooperative purchasing program. A quotation from the local distributor, MacQueen Equipment of Lake Orion, Michigan, along with product information and supporting budget documentation, has been provided for review.

### **Recommendation**

City Administration recommends that the City Commission approve the purchase of one (1) Titan Leaf Solutions 2026 Olympian Leaf Pro+ 30-Yard Leaf Collection Trailer from MacQueen Equipment, Lake Orion, Michigan, in the amount of \$199,787.00 through the Sourcewell cooperative purchasing program.

Funding for this purchase is included in the FY 2026-27 Budget (Page 105) and shall be charged to Equipment Fund Account No. 661-000-140.500.

There is additional information from Municipal Services as well as info on the vacuum trailer and specifications. There is a proposed resolution attached.

Re: 2026 Titan Olympian Leaf Pro+ Vacuum Trailer

### **Background:**

As you are aware, the bulk leaf collection program provided by the Department of Municipal Services is one of the most highly valued services for residents. City crews use several different collection methods throughout the Fall season. Historically, we would use a vacuum type leaf loader to suck the leaves into a large dump truck with a specialized collection box. City crews also utilize the Garbage truck and the loader with a Claw, leaf collection bucket. As well as running the street sweeper to remove any remaining debris. Over the course of the Fall season multiple methods and multiple crews are utilized, helping keep overtime costs to a minimum and to most efficiently pick up leaves in different types of weather and placement situations. For example, the leaf vacuum is the most efficient collection method when leaves are placed on the tree lawn. Or in the instance of a very wet, rainy Fall, the Claw is able to most efficiently pick up the piles of heavy, wet leaves. Unfortunately, the City's bulk leaf collection service has been affected by equipment breakdowns, and severe weather over the last several years. To continue to efficiently provide bulk leaf collection, we have identified the need to replace the leaf collection vacuum in the FY 2026/2027 City Budget.

City staff have researched manufacturers of leaf collection systems and were able to demo various units and visit other municipalities to discuss the pros and cons of the different styles of leaf vacuum equipment. We originally proposed a leaf collection system to go on the Swaploader truck. After further research, we found the height of the high capacity leaf body on the Swaploader will increase the risk of hitting low hanging wires and tree branches over the road. The self contained trailer mounted units were found to have a lower height, around 10 ft, which will avoid overhead wires. The self contained units are available in a large capacity (30 yd) size and come with a hydraulically controlled, joystick operated, vac tube arm to allow easy reach to the curblin and tree lawn areas. The joystick operation allows for a single person to efficiently operate the leaf vac system.

The City staff reviewed the equipment available on the market and determined that the Olympian Leaf Pro+ 30 Yd Leaf Collection Trailer from Titan Leaf Solutions (aka Bonnell Industries, Inc.) of Dixon, IL is the best option for our leaf collection program. The Olympian Leaf Pro+ is one of the only systems available that has a ride-on operator's cab (versus walking along side), and is the only model available with a climate controlled, fully enclosed cab (allowing for all weather operation). This system will allow leaf collection to be performed by a two person crew versus the three or four person crews we have operated with for the last few years. We have attached the quote from the local distributor, MacQueen Equipment (fka Bell Equipment). The pricing is competitively bid through the Sourcewell purchasing program. Also attached are a brochure from Titan Leaf Solutions with photos and details about the Olympian Leaf Pro+ as well as the FY 2026-27 capital improvement budget page.

**Recommendation:**

It is our recommendation that the City Commission approve the purchase of a Titan Leaf Solutions 2026 30 Yd Olympian Leaf Pro+ Leaf Collection Trailer from MacQueen Equipment of Lake Orion, MI in the amount of \$199,787.00. This pricing reflects the pricing through the Sourcewell purchasing program. This item is identified on page 105 of the FY 2026-27 City budget and the expense is to be charged to the Equipment Fund Account 661-000-140.500.

## MEMORANDUM

Date: June 15, 2026  
To: Chris Porman, City Manager  
From: Priya J King, Finance Director  
Subject: Fourth Quarter Budget Amendments

### Issue:

Consideration and approval of the FY 2025-2026 Fourth Quarter Budget Amendments.

### Analysis:

Please find attached the Fourth Quarter Budget Amendment packet for the 2025-2026 Fiscal Year. These amendments are for the General Fund as well as the additional nine principal special revenue and enterprise funds. The City of Plymouth adopts its budget at the Department level for the General Fund and at the Fund level for the remaining nine funds. This approach is designed to enhance accountability, improve resource efficiency, and support real-time decision-making.

In the fourth quarter, seven funds are expected to be adjusted through amendments. Closing out the fiscal year is always marked with amendments as we plan for accruals. The proposed budget amendments address changes in budgetary patterns that were not anticipated when the budget was adopted in June 2025.

This packet includes the following attachments:

1. Proposed Budget Adjustment Summary
2. Summary of Fund Equity
3. Fund Equity Chart
4. Quarterly Investment Report
5. 2025-2026 Revenue and Expenditure report through 06/09/2026 for the General Fund, Special Revenue Funds, Component Funds and the Enterprise Fund

## Financial Overview:

- **The General Fund** has the following adjustments:
  - The General Fund experienced increased expenditures of \$319,844, which were partially offset by revenue adjustments including additional state revenue sharing, increased parking fee revenue, as well as the deferral of a Rotary Club contribution to the subsequent fiscal year. This resulted in the appropriation of \$258,785 of fund balance.
    - The Police Department budget increased by \$146,175. Of this amount, \$136,500 represents expenditures associated with the MCOLES Training Grant which are fully offset by corresponding revenue of \$136,500. The remaining increase is attributable to higher uniform allowance costs resulting from recent new hires.
    - The Fire Department budget increased by \$115,105 to address a shortfall in the contractual services account attributable to increased run volume.
    - The Parks and Public Property budget increased by \$24,220 to accommodate anticipated year-end contractual services expenditures related to grass cutting services. This adjustment aligns the budget with projected service levels and expenditures through the close of the fiscal year.
- **The Major and Local Street Funds** were adjusted due to an unanticipated adjustment to the ACT 51 distribution. Overall, both funds remain stable as we approach the end of the fiscal year.
- **The Recreation Fund** has the following adjustments:
  - Revenue increased by \$134,160, primarily due to stronger-than-anticipated program revenue. Contributing factors included record-high soccer registrations and increased participation in special event programming, both of which generated additional revenue beyond budgeted levels.
  - The Administration budget increased by \$106,500 to reflect higher-than-budgeted operating expenditures. Approximately \$70,000 of the increase is attributable to utility costs at the Cultural Center, resulting from higher DTE energy rates, extended operation of the chiller system, and increased natural gas consumption associated with the new generator.
  - The Cultural Center incurred an unbudgeted expenditure of \$19,743 for the emergency purchase of a compressor, which was approved by the Commission in May 2026.
  - The Soccer department is anticipated to increase its programming expense by \$20,000. This increase is offset by an increase in soccer revenue as previously stated.

The Recreation Fund is utilizing fund balance to achieve a balanced budget position. In subsequent budgets, consideration may be given to increasing the General Fund contribution to the Recreation Fund to support ongoing operations and improve long-term fund balance stability.

- **The Waste and Recycling Fund** continues to maintain a strong financial position. The property tax revenue and service revenue increased by \$9,211.
- **The Building Fund** includes a Q4 budget amendment to reinstate the General Fund contribution to its originally budgeted amount. The fund is expected to conclude the fiscal year in a financially stable position.

- **The Water and Sewer Operating and Maintenance Fund** increased water revenue by \$72,850, which will increase fund balance. The fund is projected to end the fiscal year with a healthy fund balance position.

As of June 10, 2026, the combined fund balance for the City's ten principal operating funds is \$12,319,944. The General Fund reflects an increase of \$434,425, which is expected to adjust slightly during year-end closeout but is anticipated to remain strong. As the fiscal year concludes, all funds are projected to end the year in a positive position. Overall, the City's financial position remains solid, providing a strong foundation for the 2026-2027 fiscal year.

**Proposed Action:**

Adopt the attached resolution approving the FY 2025–2026 fourth quarter budget amendments. The resolution will amend the FY 2025–2026 budget, incorporate the adjustments identified in the Budget Adjustment Summary, and authorize the Finance Director to make the necessary line-item adjustments.
